PROFESSIONAL SUMMARY

Senior Product Designer with **5+ years** of experience building **scalable design systems** and **enterprise products**. Consolidated 700+ component variants into 32 via a novel PCS framework, enabled seamless tax workflows for **1.4Cr+ businesses**, and shaped a **7-vertical content economy** from scratch. Delivers production-ready products end-to-end using **AI-native tools** (Claude Code, Cursor, Figma Make). Turns complexity into clarity — structure before style, systems before screens.

EXPERIENCE

Zzazz.ai — Bengaluru

Designer · UX Architect · Product Architect — Jul 2025 – Present

Transformed disconnected POCs into a unified 7-vertical content economy serving 80–98% of users

- Architected **7 interconnected verticals** from scratch in collaboration with Founder, Product Lead & AI team, projecting **50% higher CTR**
- Overhauled Exchange into a **query-led AI-native interaction model**; structured Moments vertical IA & wireframes; defined TimePay's **3-path access model**
- Shipped all deliverables using **AI-first workflow** — Claude Code for prototyping & logic, Figma Make for rapid UI generation, reducing design-to-dev cycle by **40%**

7 Verticals architected | **50%** Higher CTR projected | **80–98%** Users reached (non-subscribers)

Clear (ClearTax) — Bengaluru

Senior Product Designer ↑ Promoted — Oct 2023 – Jul 2025

Directed Accounts Payable suite design and automated Table-4 ITC reconciliation engine

- Designed automation engine for **Table-4 ITC reconciliation**, matching GSTR-2B with purchase registers — reduced **65% of support queries**; escalated to roadmap-level initiative
- Executed **UX audit across 4 AP modules** — standardised usability testing and research methods across 3 product pods, improving design consistency by **30%**

65% Support queries reduced | **AP Suite** Design quality improved

Product Designer — Jul 2021 – Sep 2023

Built Mint V8 design system · Streamlined GSTR-3B filing · Drove Max ITC and Ingestion Module

- Spearheaded **Mint V8 design system** — token-based architecture with PCS Logic compressed **700+ button variants to 32**, cutting dev implementation time by **50%**
- Streamlined **GSTR-3B workflow** for **1.4Cr+ businesses** — introduced bulk upload, multi-GSTIN support, and reconciliation engine; accelerated end-to-end completion by **60%**
- Championed **Max ITC** (field research with 12+ tax professionals, boosted adoption from 18% to **53%**) and **Ingestion Module** (schema-based import, **45% higher success rate**)

700+→32 Button variants | **60%** Filing time cut | **53%** Adoption (from 18%) | **45%** Import success up

Visit Health — Internship

UI/UX Design Intern — May 2019 – Jul 2019

- Revamped marketing website and optimised Android app onboarding flow, increasing sign-up completion by **20%**; partnered with founders on brand identity refresh

SKILLS

CRAFT

Design Systems · Interaction Design · UI/UX Design · Information Architecture · Wireframing · Responsive Design

RESEARCH

User Research · Usability Testing · A/B Testing · Journey Mapping · Stakeholder Management · Data Analysis

STRATEGY & AI

Product Strategy · AI-Native Development · Prompt Engineering · Cross-functional Collaboration · Agile / Scrum

TOOLS

Figma · **Claude Code** · **Cursor** · **Figma Make** · **FigJam** · **Storybook** · Adobe Creative Suite · Framer · v0 · Notion · Jira / Linear

EDUCATION

IIT Guwahati

Bachelor of Technology · 2017 – 2021

Relevant: HCI, Cognitive Psychology, Visual Communication

CERTIFICATIONS

- ✓ UX: Ultimate Guide to Usability & UX — Udemy
- ✓ Visual Elements of UI Design — Coursera
- ✓ IxDF Membership — Interaction Design Foundation

INTERESTS

- ✓ Volleyball — weekend sport
- ✓ Vibe coding — stitching frontend & backend with AI tools
- ✓ Daily AI tool exploration — learning with the new world
