Senior Product Designer

Senior Product Designer with **5+ years** across fintech and AI. Track record of building token-based design systems, simplifying enterprise workflows for millions of users, and leading 0→1 product architecture. Now operating with an AI-native workflow that compresses design-to-prod by 40%. Ships production-ready work end-to-end with Figma, Claude Code, GitHub & Vercel.

Work Experience

Designer, UX & Product Architect @ Zzazz.ai

JUL 2025 — PRESENT

Content Economy — 7 Verticals from Zero

- Partnered with Founder, Product Lead & AI team to architect **7 interconnected verticals** from scratch — unlocked a coherent monetisation path across the ecosystem
- Reframed Exchange as a **query-led AI-native model**, restructured Moments IA, and defined TimePay's **3-path access model** — collapsed 3 fragmented products into one navigable surface
- Pioneered an **AI-first design workflow** (Claude Code + Figma Make + Cursor), shipping production-ready prototypes in days

→ Projected **50% CTR lift**, reaching 80–98% of users; design-to-dev cycle cut by **40%.**

Senior Product Designer @ Clear (formerly ClearTax)

OCT 2023 — JUL 2025 · PROMOTED

Accounts Payable Suite & Research Playbook

- Defined the **research & usability-testing playbook adopted by 3 product pods**; ran weekly design crits and mentored 2 mid-level designers
- Owned **Table-4 ITC reconciliation** end-to-end (matching GSTR-2B with purchase registers) — escalated to a roadmap-level initiative
- Drove a **UX audit across 4 AP modules**, partnering with 3 PMs and 8 engineers to align scope, success metrics, and rollout sequencing

→ Cut **65% of support queries**; lifted measured design consistency by **30%.**

Product Designer @ Clear (formerly ClearTax)

JUL 2021 — SEP 2023

Mint V8 Design System

- Spearheaded **Mint V8** with 1 PM and 4 frontend engineers — token-based architecture & PCS Logic compressed **700+ button variants to 32**
- Built foundational tokens (typography, spacing, colour, elevation) with full accessibility support; led adoption workshops across product and dev

→ Cut dev implementation time by **50%** across the org; enabled multi-region theming.

GSTR-3B Filing & Max ITC

- Streamlined **GSTR-3B filing** for **1.4Cr+ businesses** — bulk upload, multi-GSTIN, and reconciliation engine
- Drove **Max ITC** from **18% to 53% adoption** via field research with 12+ tax professionals; shipped **Ingestion Module** (schema-based import)

→ Filing time cut **60%**; import success rate up **45%.**
